

QUICK REFERENCE TOOL

RESIDUAL WASTE MANAGEMENT

POLICY

DURING PUBLIC EVENTS

**Sorting is as
easy as
1,2,3**

GO GREEN ! BE PROUD !

Before the event

- ◆ Determine the type of residual waste that will be generated during the event (recyclable, compostable or waste materials);
- ◆ Ensure the bins are identified and in sufficient numbers for each category of materials;
- ◆ Inform volunteers and support staff working at the event about managing residual waste.

During the event

- ◆ Name a person who will be in charge of managing the residual waste and sorting the materials properly;
- ◆ Sort the different materials immediately and put them in the proper bins.

After the event

- ◆ Dispose of the different materials according to the type of treatment required.
 - Recyclable material: Transfer area at the Reclamation Centre;
 - Compostable material: Composting deck at the Reclamation Centre;
 - Household waste: Transfer area at the Reclamation Centre.

The Témiscamingue Reclamation Centre is located at 641, Hwy 391 à St-Édouard-de-Fabre (tel.: 819 634-2233).
